

ASV Lite

The ultra-slim display light panel featuring ASV™ technology

Available in standard 'A' sizes or as custom manufactured panels, ASV Lite is the unique low voltage LED-based light panel system developed specifically for signs and displays

Easy assembly and fixing — no special tools

Attractive brushed aluminium finish

Unique LED strip illuminates edge-lit acrylic sheet

ASV Lite advantages

- Ultra-slim profile saves space and allows various mounting options
- Very low power consumption — standard A2 panel is rated at just 7W
- No heat is emitted
- Quick, easy and safe installation — no specialist skills required
- Robust solid state design for internal use — even in hostile environments
- Range of frame options available
- Standard and high brightness versions available

ASV Lite applications

- Retail advertising lightboxes
- Internal and external signs
- Office reception areas
- Photographic and exhibition displays

ASV Lite is based on the proven ASV transit™ advertising product range

Plastic-frame ASV Lite is available in blue or white
